

## Supplementary Information for Apache Log4j

Have you confirmed with your MSP and IT vendors whether products and services they supply to you are affected by Log4j vulnerabilities?  Yes  No

Have you patched known instances of Log4j vulnerabilities, or upgraded to the current release of Log4j 2.17.0?  Yes  No

Where upgrading is not possible, have you disabled the JNDILookup class?  Yes  No

Where patching is not possible, have you implemented network segmentation and separation to protect vulnerable servers and applications?  Yes  No

Are you aware, after investigation, of any indicators of compromise in connection with Log4j vulnerabilities?  Yes  No

Please outline any additional controls your organisation has in place or actions you have taken to address Log4j vulnerabilities or indicators of compromise:

### Declaration

I/We acknowledge that all information given on this Supplementary Information for Apache Log4j and any attachment is true and correct.

*The signatory should be a director or senior officer of, or partner of, the policyholder.*

Position:

## Important Information

### Your Duty of Disclosure

Before **you** enter into an insurance contract, **you** have a duty to tell **us** anything that **you** know, or could reasonably be expected to know, may affect **our** decision to insure **you** and on what terms.

**You** have this duty until **we** agree to insure **you**.

**You** have the same duty before **you** renew, extend, vary or reinstate an insurance **policy**.

**You** do not need to tell **us** anything that:

- reduces the risk **we** insure **you** for; or
- is common knowledge; or
- **we** know or should know as an insurer; or
- **we** waive **your** duty to tell **us** about.

### If you do not tell us something

If **you** do not tell **us** anything **you** are required to, **we** may cancel **your policy** or reduce the amount we will pay **you** if **you** make a **claim**, or both.

If **your** failure to tell **us** is fraudulent, **we** may refuse to pay a claim and treat the **policy** as if it never existed.
